

NEW POSITION

Technical Development Manager - Flexible Faced Lamination European Polymers

Home/Site based – European Country

Comprehensive salary and benefits

Stepan Company is a global manufacturer of specialty and intermediate chemicals used in consumer products and industrial applications. Stepan is the market leader around the world in the manufacture of aromatic polyester polyols (Stepanpol) ®, primarily used in the production of polyisocyanurate and polyurethane foam

Due to the continued exceptional growth of the business a new opportunity has arisen to recruit an additional Technical Development Manager for our European Polymers operation. Reporting to the Senior Technical Manager Europe, you will be responsible for developing sales to the flexible faced lamination industry throughout Europe, in line with company standards and with key focus on the strategic direction of the business. The primary function is to provide hands-on technical support, including plant trials, to customers and to support the sales force in the active promotion of Stepanpols® within the industry.

You will be degree qualified in Chemistry or Chemical Engineering with significant experience in Polyurethanes and flexible faced lamination production. Product application and technical service experience would be advantageous. You should also possess a broad understanding of the markets and be able to demonstrate a proven track record within a commercial environment, have good interpersonal and people management skills with the ability to work within a team.

Fluent in English is a requirement and French and/or German would be advantageous.

In return you will be rewarded with a comprehensive compensation package including bonus and career development opportunities in a global business.

Please apply with a full CV and covering letter to Colin Jones, HR manager, Stepan UK, Bridge Street, Stalybridge, Cheshire, SK15 1PH or e-mail.

colin.jones@stepaneurope.com. Closing date for applications Friday 19th March 2010.

Stepan is committed to equality and diversity in all its activities
